

## Aviation Online Programme

An information based programme based on an actual airline flight to be used in conjunction with classroom teaching. Essentially a digital text book with audio.

Includes:

- Standardised ATC phraseology
- Aircraft parts and their functions
- Crew duties and procedures
- Navigation
- Meteorology
- Theory of Flight
- Flight Safety

Developed by professional pilots, ATC's and EFL teachers in conjunction with the Pilots Association and Aer Lingus. Contact Edgewater College to register. We will then issue you with a password within 24 hours. You can then access the online programme from any computer with internet connection.
